# **VeloBind ensures your presentation will not fall apart**

**C**reating the right impression is crucial when presenting yourself, your company or organisation. A high quality, 'professionally finished' document immediately establishes your credentials and gives your communication substance and authority. You can also gain that competitive edge. The Gestetner VeloBind® System is simple to use, fast and most importantly, unlike other processes, its unique technology guarantees a secure bind.

You can be confident because it is supplied and maintained by the specialists in 'hard-copy' communication and supported by the guarantee of a first class service and supply back up.

The 170 (right), 270 (left) and 373 (rear) VeloBind Systems for 'professionally finished' documentation.

## A BINDER FOR EVERY BUSINESS

### VELOBIND 170

The binding system for the growing business or organisation. Here is a cost effective method to achieve a high quality look. It offers:

#### THE APPLICATIONS ARE ENDLESS

Almost every communication requiring 'hard copy' will be enhanced by high quality and secure binding. These include: Reports, manuals, contracts, surveys, specifications, audit reports, research studies, investment proposals, manuscripts, price lists, company procedures, quotations, etc.

In fact, any document that requires perfect presentation!

## THE PERFECT BINDING SYSTEM

The VeloBind System offers a combination of features that makes it unbeatable for producing perfectly bound documents, such as:

### HIGH QUALITY DOCUMENT PRESENTATION

Everything from a few sheets to a 750 sheet manual will appear more professional when attractively and correctly bound. The VeloBind System offers a wide range of covers in a variety of colours, finishes and styles with binding strips in different colours to match or complement the covers. These strips can be used to personalise your documents while the covers can be printed to include your logo or your client's name.

### HARD BACK COVER CAPABILITY

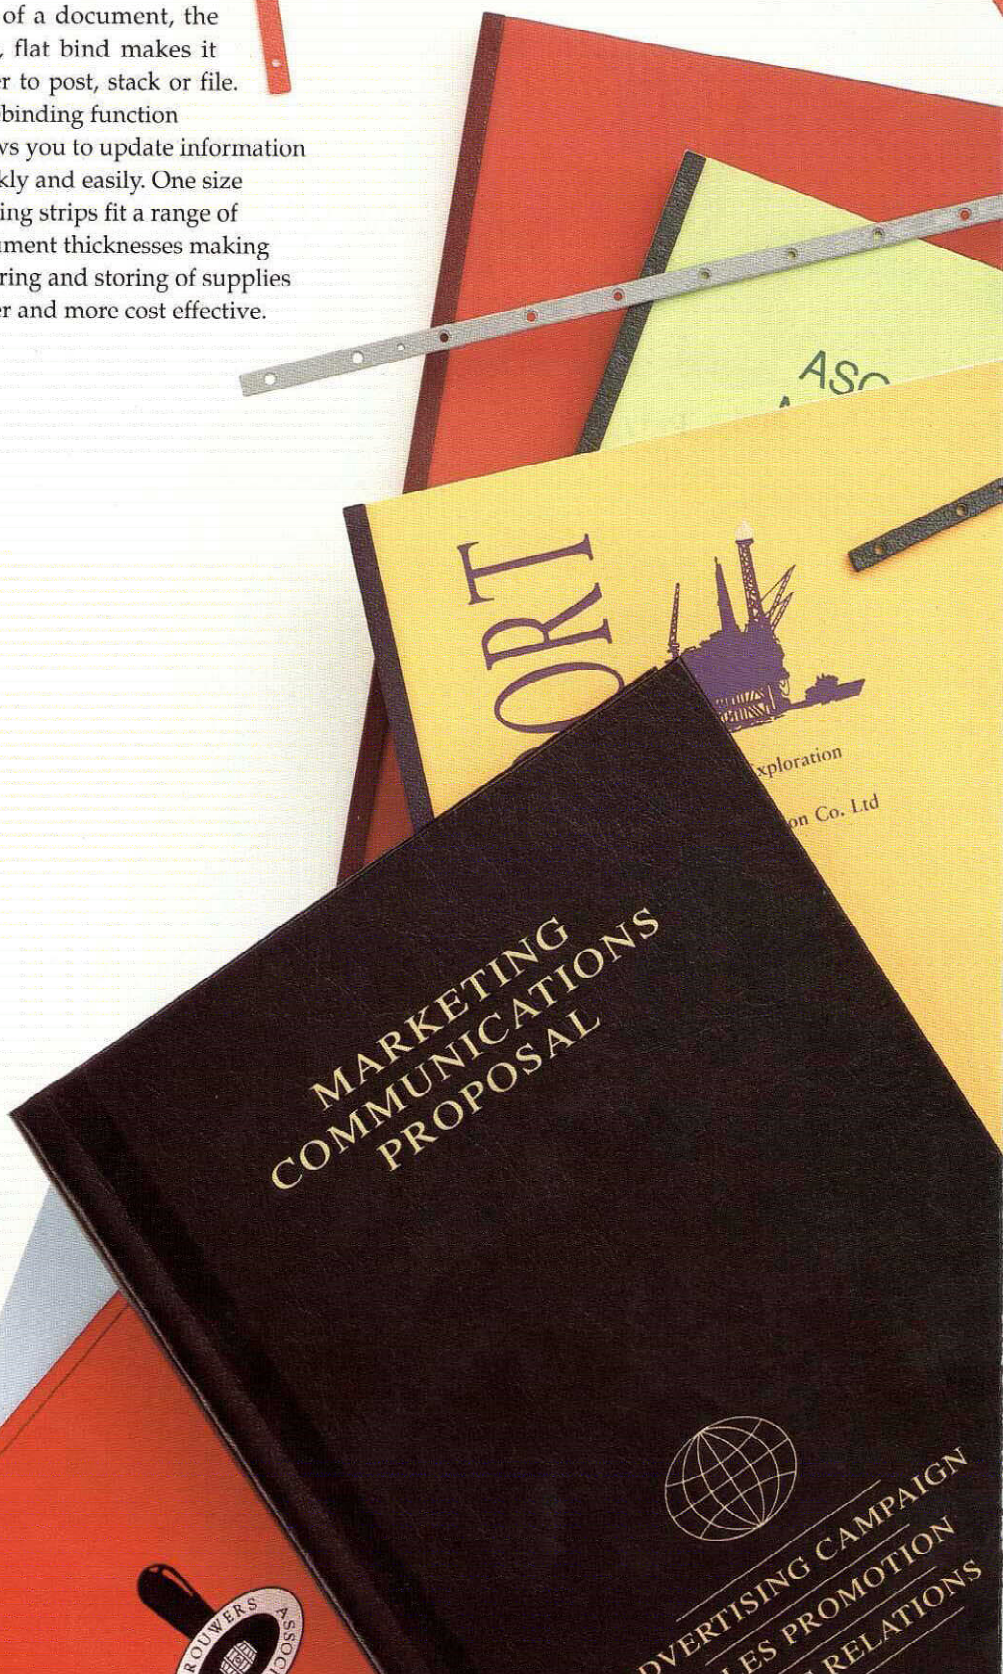

VeloBind's special hard back covers give your documents a prestigious 'leather-bound' look. Your communication has far more stature and is more durable for long term use or reference material.

### A SECURE BIND

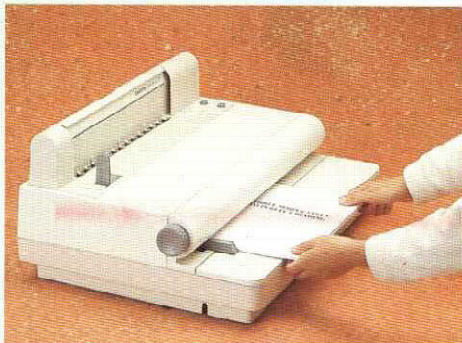

The unique VeloBind binding technique means that you can be confident that sheets will not become loose or fall out. The security of your documents is assured even if they are frequently used.

### FLEXIBLE BINDING

Up to 750 sheets can be bound and, whatever the size of a document, the neat, flat bind makes it easier to post, stack or file. A debinding function allows you to update information quickly and easily. One size binding strips fit a range of document thicknesses making ordering and storing of supplies easier and more cost effective.

## THREE SIMPLE STEPS TO PERFECT BINDING

**Collate the document and punch  
the pages.**

**Add the pre-punched covers.**

**Add the binding strips and lower  
the binding pressure bar.  
The document is bound by riveting  
the strips together by heat.**

### WORK WITH PEOPLE WHO WILL SUPPORT YOU

Please contact your nearest Gestetner representative for more details of the VeloBind Binding System. With our worldwide sales and service organisation, you can be confident of easy access to sensible advice, straightforward financial plans and a first class service and supply back up.
